

More amenities to come in Yarrabilba's first district centre

Yarrabilba will soon be transformed into a fresh food shopping, dining and medical precinct, as Coles, McDonald's and a Family Medical Centre move into the district centre precinct later this year.

The precinct will see a 3,200 square metre full line Coles supermarket with fresh bakery, deli, seafood, large fresh produce and grocery on offer.

The McDonald's restaurant will feature self-serve touch screen kiosks, digital menu boards, full McCafé offering, Playland and dual lane drive thru. Yarrabilba's second Family Medical Centre will be anchored by a 400sqm pharmacy and an array of Allied Health uses plus an onsite café.

Also, within the same precinct, Yarrabilba will see its first veterinary hospital mid this year and a Bridgestone Tyre and Auto service is on track to open its doors in May.

These are very welcomed additional amenities for the community and district centre which already includes an IGA, Caltex service station and Star Mart, medical centre, restaurants and cafes.
