

## SENIORS LIVING IS LOOKING UP

AVEO - the largest, most modern and fully integrated seniors residential campus in Australia will be in Greater Springfield and the construction of stage one is well underway.

The 2500 seniors living apartments has been recognized for its outstanding design and innovation. Offering one, two, and three bedroom options planned with the first 66 apartments for completion mid-2017.

A variety of living options such as independent living units, medium care healthy living units, dementia friendly aged care and respite facilities will be offered. Also, a boutique child care and multiple levels of aged care residents are planned to be included that gives retirees the opportunity to interact with younger generations and remain connected with their grandchildren and extended family. And once complete, there will be around 5400 construction jobs to be created over the life of the project and 580 permanent jobs.

They are also planning to provide senior living services including residential aged care facilities and retirement village opportunities within Health City Springfield.

The residents of the senior living services within Health City Springfield will be fortunate to receive the comprehensive care being provided by Mater Health Services and its partners, not only for hospital and complex care, but more importantly in relation to General Practitioners.
