

To Whom It May Concern,

My husband and I approached Glen and 21st Century Group seeking assistance with affordable property investments in South East Qld.

For our first meeting, we flew up to Brisbane and Glen greeted us at the airport. We spent the day being chaperoned around by Glen and he was very generous with his time. We were very impressed with his knowledge as he gave us a thorough background of Yarrabilba and its surrounds. Glen made us instantly feel at ease about investing in this area, he was very upfront and honest. He was clearly able to explain to us the projected growth for Yarrabilba and was more than happy to show us the more established Springfield Lakes so we could get the big picture.

Nothing was too much trouble for Glen and his staff with the lines of communication always being open and efficient. From our initial meeting to the selection of land, bricks, colours and floor design Glen always presented us with a variety of options which allowed us to make informed decisions. When it came time to building, contents and tenant insurances he pointed us in the right direction.

Glen and the 21st Century Group team were accurate with the projected time frame from start to finish and we were very well informed with regular emails and photos outlining updates and progression of the build.

Even now after our build is complete and we have tenants in our property, Glen and his team continually send emails and photos of new developments and new infrastructure that is being built to make Yarrabilba a thriving community.

We highly recommend Glen and his 21st Century team.

Regards,

Andrew and Nicole Monckton
