

As a couple with no experience about investment properties, who had only heard about it in casual conversations and thinking that it was only for the wealthy, we certainly had our views changed when we first met Glen.

Firstly, he made us feel very welcome and treated us like family. His explanations made us feel very comfortable and assured us we were certainly suitable candidates for an investment property. Glen was able to answer all our concerns and explain the processes in easily understandable terms. He recommended suitable blocks of house and land packages that catered to our budget. After making the decision to invest the whole process was extremely easy, including a fantastic financial manager, recommended by Glen, who negotiated our mortgage with the banks on our behalf.

Glen and his team were very professional and kept us informed of procedures right through the whole procedure and were always on hand when we had any queries. On completion of the build our property was rented out within days.

We can now sit back and watch our investment grow thanks to Glen from 21st Century Group Property Investments and his wonderful team.

Rob and Linda Hill
