

*As a novice when it came to buying an investment property I was quite surprised to meet Glen. After speaking with Glen I realised that it was much easier to get into the property market than first expected.*

*He made me feel very comfortable and explained everything very simply. He managed the process seamlessly... I couldn't believe he made everything so simple.*

*During the build he sent me process photographs so I could actually see my house as it was being built. After completion there was no drama getting a tenant. Glen and his team did all the interviewing and kept me across the applicants the whole way.*

*I got to meet the agents who were leasing my property and they were always very helpful and kept me notified of any issues or maintenance required at the property.*

*It has been an easy process and would recommend Glen and his team to anyone seeking an investment property.*

*Regards*

*Kerry Grant*
