Glen and his company, 21st Century Property Investments was recommended to us by our accountant. We were looking to build an investment property, but as a couple both working full time, we wanted someone to deal with the trades and organize the build for us. Glen and his company more than adequately did this for us

With Glen's help we purchased a suitable block of land, chose a house style to suit and Glen took it from there.

Throughout the build process, Glen was in constant contact with us explaining what was happening and even provided us with progress photographs at each stage. The build was completed ahead of schedule much to our surprise.

We have now had tenants in our property for a few months at a higher rental rate than initially anticipated.

The entire process, for us, has been smooth and successful. Glen has been great and his business manner allowed us to place our trust in him and followed through with a very comfortable journey for us.

We are more than happy to recommend Glen and 21st Century Property Investments to our friends and family.

Thanks Glen, we appreciate all your help!

Sincerely,

Justin & Katrina Hall
