

TO WHOM IT MAY CONCERN

GLEN was introduced to us through a good friend when we were looking for property investment in QLD.

The first time we met him, we were already impressed by his professionalism; his passions, and his service.

Since the first meeting, he had looked after all the work from the purchase of the land right through to the completion of the construction. He also provided very valuable advices on mortgage related matters, as well as after sale services, including the personal touring of the site in Springfield Lakes QLD.

We are very happy for this investment!

We have no hesitation to recommend him to anyone looking for property investment in QLD, particularly for those who have minimum knowledge of property development in QLD, and who are unfamiliar on such adventure. To us, GLEN is made for this and you have just need to meet him to find out - we are not exaggerating!

THANK YOU GLEN!

Your Sincerely,
Hue & Fiona.
