Dear Glen,

We would like to express our appreciation and thanks for all of your help and involvement in the process of purchasing our investment home in Forest Lake, Qld.

From the initial stages of trying to understand property investment, until our decision to buy property; throughout all aspects of the project (such as dealings with property managers, solicitors, builders etc.), you have been informative, available and reliable.

Being our first investment purchase, we had our doubts and many questions. You took time to patiently answer all of our questions and your confident knowledge of your business eased our apprehension and persuaded us to make the decision.

We are both busy working people with limited time to organise something like purchasing a home, let alone a home in another state! However, with your guidance, professionalism, ongoing follow up and customer service it has been smooth sailing. Even after our purchase you have made an effort to maintain our relationship and continue to always be ready to help. You are a faithful person and full of concern and care – quite a unique person! Thanks again!

We have no hesitation in recommending you and 21st Century Property Investments to others. God bless in all that you do in the future.

Sincerely,

John Adidjaja & Linda Gandawinata
