

To whom it may concern,

I would like to recommend the services and assistance of Glen Wambeek from 21st Century Property Investments. After not having invested in property for some years it was great to have a friendly guide that spared no effort to get to know us and get us the best option that suited our needs and finance. Given the many things to understand it is a great relief to have such help and get it right.

Glen only deals with quality stuff and runs a great back and information service way after the deal is done so you feel really connected to your property and what is happening. I have recommended him to many people I know and would highly recommend that if you are reading this letter that you pick up the phone and give him a call to see what the opportunities are. Glen is easy going with no pressure so go for it.

Thanks Glen we will be calling you first when we are ready for the next investment property.

Kind Regards

Richard and Kim East
