

To Whom It May Concern

2<sup>nd</sup> August 2011

Our 2<sup>nd</sup> Investment Property in Springfield Lakes was completed in May 2011.

Both Debbie and I were impressed with the speed at which the property was completed and the quality of the finish and inclusions.

Given the amount of wet weather Queensland had during the construction of our property we expected some delays. This was hardly so. I guess Glen must have been there with the big stick and an umbrella.

This is the 2<sup>nd</sup> Investment Property we have purchased from Glen. Our 1<sup>st</sup> one purchased in 2004, also in Springfield Lakes, has been fully occupied ever since completion.

Our 2<sup>nd</sup> property had tenants ready to move in before it was completed.

As a businessman, we have found Glen to be one of the highest professional and customer focused type.

Nothing is too much trouble and he really is just a phone call away.

The little things he does just finish the deal, the small gifts, the photographs of each building stage from start to finish that has been transferred into a coffee table book, and the tour of Springfield Lakes showing the shops, schools, university, rail station location all add to his professional, easy going style.

Glen makes the big purchase of an Investment Property a stress free and enjoyable experience and always seems to be looking at ways to improve.

We would have no problem in recommending Glen to family, friends and any one seeking a reference about him.

Regards

Shaun & Debbie Hinks
