

To whom it may concern

My wife and I have just purchased our first investment property which is in Springfield Lakes. Being our first property we were unsure and worried about the process but Glen told us he would look after us and that is what he did. Every stage of building he kept in contact, sending photos, letting us know what stage the house was up to and what was happening next. Any questions or problems we had were sorted out promptly! Anyone who is thinking about an investment property needs to talk to Glen. I would recommend 21st Century Property Investments to my family and friends.
