

To whom it may concern:

This is an endorsement of Glen Wambeek and 21st Century Property Investments Pty.

Glen provided an excellent investment opportunity. The property was build new off plan as an investment in the greater Springfield area (Ipswich Queensland).On completion of the project I was impressed with the building Quality throughout .(Even the appliances were tested to be functioning correctly)

Glen always provided excellent personal service throughout this project. As a first home buyer I was anxious about taking the plunge but Glen helped me through it and made it a breeze.

The tenants were ready to move in when Glen said they would be, and of this stage I have not had a problem with subletting the property.

If you are a first home buyer it is highly recommended that you get the necessary legal/financial advice before signing any legally binding documents.

Wishing you well on your road to prosperity

Gerd Schmucking
