

13th April, 2017

Glen Wambeek and 21st Century Property Investments Pty Ltd was initially recommended to us by our accountant. Recommendation also came from a work colleague, who had previously purchased an investment property in Springfield QLD from Glen and was extremely happy.

The first time we met Glen he made us feel very comfortable and was more than happy to answer any questions we had. We had owned an investment property in the past and we were very impressed with Glen's personal approach to our needs. It was clear he had vast knowledge of the Springfield developments and was able to provide very detailed information when explaining the benefits of investing in the area.

Once we had decided to go ahead with purchasing a property Glen returned to our home a second time so we could choose a suitable block of land and house design. Glen was very patient through this process and was very up front regarding any queries or information we were requesting.

Glen would always get back to us personally with any questions that we had during both planning and the build. Nothing was ever too much trouble. We were very pleased with how smoothly the construction of the property went. We were kept informed every step of the way.

We visited our property at the beginning of 2016 as it neared completion. Glen met with us to ensure that we were completely happy with every aspect. A few days before meeting with Glen at the property, 21st Century Boutique Properties secured us a 2 year lease before the property's completion and handover, which was absolutely fantastic! A testament to Glen and his team. Our property has now been tenanted just over 12 months and things continue to run smoothly. We have complete peace of mind knowing our property is being well looked after by Glen and 21st Century Boutique Properties.

We will definitely consider purchasing a second property from 21st Century Group in the future. We would certainly recommend Glen's companies and services to anyone who is interested in purchasing an investment property.
