

I would like to thank Glen and his team at 21st Century Property Investments.

The building of my second investment property which was purchased through them was completed in August 2017, on the new Lend Lease development located at Yarrabilba, Queensland.

Just like my first investment property, the experience was very smooth, and Glen was always enthusiastic and happy to handle any questions and respond to them promptly. Glen makes the process very easy and continues to provide support on any matters related to my first property at Springfield Lakes Queensland completed in December 2014.

Glen also introduced me to his management company, 21st Century Boutique Properties Pty Ltd who manage both properties and I continue to get great service from his dedicated property managers.

I would highly recommend the services of Glen, 21st Century Property Investments and 21st Century Boutique Properties Pty Ltd.
