

To Whom It May Concern:

My wife and I were referred to Glen and 21<sup>st</sup> Century Property Investments by our accountant around two years' ago.

Being wary of property investment, Glen made us feel at ease right from the first meeting, and the fact that Glen was able to answer all our questions (and some we hadn't even considered) gave us the confidence to go ahead with building an investment property with 21<sup>st</sup> Century Property Investments.

Glen and all his staff are very friendly, approachable and extremely knowledgeable. Every question along the way was easily answered and we were continually advised as to what was happening with the building of our property complete with regular update photos during construction!

We are extremely pleased with the location, quality, inclusions and workmanship of our property.

We cannot recommend Glen and his team highly enough!

If you are considering investing in property, we would strongly urge you to talk with Glen first and see just how stress-free building with 21<sup>st</sup> Century Property Investments can be!

Regards,

Nigel and Linda (Robinson)
