

1st October, 2018

Hi Glen,

Firstly I cannot thank you and all your staff at 21st Century Group enough for all your help with building my investment property in Spring Mountain.

Over the years I have heard by people that building a home was such a stressful thing to do. However I found this completely the opposite with dealing with you and your team.

Living in Sydney I thought that this would be a hard process for me especially being so time poor on my behalf, but you made everything run extremely smooth and easy for me. Giving me an end product far greater than I had thought and expected. I have no doubt in my mind that this was one of the best decisions I have made in my life for future and present financial gains.

For anyone who is thinking of buying an investment property with Glen I cannot recommend it enough. His knowledge in all aspects of the investment was vast and unbelievable. Everything Glen said that he was going to do and that was going to happen did, which in turn created a trust and relationship which is hard to come by these days.

Glen I would like you to know that as soon as I can I will be buying another investment property with you and the team at 21st Century Group.

Once again thank you and all the best. Will be in touch soon.

Cheers.

Regards,

Jason Hamilton
