For Glen,

We had been on the look out to purchase an investment property for a couple of years but were too scared to take the plunge! Finding an investment in a good suburb, within our budget that would also give us future capital appreciation, without too much of a stress on our purse and with someone we could trust was hard!

It was then that we were introduced to Glen through one of our close friends who having purchased their investment property through Glen gave us a glowing recommendation of his services.

One meeting with Glen alleviated all our fears! Glen spent almost 5 hours with us at our first meeting! Patiently answering all our questions, taking us through the entire process in detail, explaining financial impacts with a real time calculation of impacts using our own numbers so that we could easily relate to them. Needless to say, we signed up with Glen for our 1st investment property in Springfield Lakes soon after. Glen delivered each stage as promised with absolutely no follow up hassle or any inconvenience on our part.

Our house was ready on the date promised and the best part was that Glen's property management arm had tenants ready to rent our property on the very day we were given the keys! The entire process was professionally handled and all final documents handed over to us immediately.

We have absolutely no reservation in recommending Glen to any aspiring investors for a very professional and stress-free experience.

We have now embarked on our 2nd investment for a property in Yarrabilba with Glen and look forward to a continued partnership with Glen and his team.

Thank you Glen and congratulations on 25 years in business.
