

17th February, 2019

We had been considering purchasing an investment property for a few months, as we hunted for suitable builders, 21st Century Group was recommended to us. Being new to residential property investment we had many questions, and Glen's knowledge of the industry was reassuring.

The 21st Century Group building team in Springfield Lakes were outstanding; maintaining regular contact and responding to our questions. We now run our investment property through 21st Century Boutique Properties, the property management company, and our experience of their professionalism is also excellent.

Glen has built a business that is knowledgeable, professional, and well placed for investors.

Kind Regards,

Philip Goh and Renee Blyth
