Thanks Glen for making my first time purchasing an investment property a pleasurable experience. From start to finish the experience was professional, informative, and warm with exceptional customer service.

Being a first timer buying an investment property and also one that is being built from scratch is quite daunting, and as an employee who works in the building industry I know there are a multitude of things that can go wrong.

I would have these epiphanies at usually 2 am or 3 am in the morning of a question I would have to put to Glen immediately, my angst was always dissolved as I would ring Glen first thing in the morning with my eager question. Glen's response was always confident and completely reassuring, this man certainly knows his craft. The whole process was seamless. Glen delivered each stage as promised with absolutely no follow up hassle or any inconvenience on my side.

Tenants had already been sourced and screened prior to completion, ready to move in upon completion, effortless.

I would also like to say thank you to Veronika, Jessica, Chantal & Shenae for their assistance too as they all had significant roles to play to make the process so comforting.

The special touches were a gorgeous complement upon conclusion, the books, the video, the information provided on the rise of Springfield Lakes and the other wonderful additions included in my completion kit. Simply superb!

I look forward to my continued association with Glen and his team & buying another investment property into the future.

Amanda DeVries
